

CHILL GREEN

BITTER & TROPICAL FLAVOR

The fusion between umami taste of barley shochu
and the bitter & tropical flavor of "hop".

Bittersweet notes reminiscent of pink grapefruit

About CHILL GREEN

Bittersweet notes that evoke pink grapefruit - introducing a new take on our botanical barley shochu.

This brand aims to be at the side those discerning customers who are looking for a relaxing time for themselves in a busy daily life.

Now we're excited to present the second variation, bitter & tropical, taking advantage of the rare Galaxy hops in its key ingredients to deliver a completely different aromatic & flavor profile.

2 special manufacturing methods that create new palate

Botani-cohol Method

A method of developing a new type of fragrance-forward flavor profile by combining botanicals with moromi mash. Botanicals are added to mash at the optimum time during fermentation, allowing the aromatics from the botanicals to be fully extended to the end product of shochu.

Refined Blend

We use the most refined raw shochu of single distilling in the blend to fully bring out Hop's strength.

Note : Both methods are unique naming coined by Hamada Syuzou

CHILL GREEN *recipes**

Try a 1:1 ratio for extra vibrancy.

Chill Highball

CHILL GREEN BITTER & TROPICAL 1 : 2 SODA WATER

TASTE

Bursts with a zesty, tart flavor, reminiscent of that classic pink grapefruit experience.
